New temporary local rule on greens:

If your ball is on the green, you may take relief from unfavorable conditions by moving your ball to the nearest point of relief, no closer to the hole. No relief is given from conditions if your ball is not on the green. 9-27-2023

New temporary local rule for putting on the greens:

There is a maximum 2-putt on the greens. However, your first putt must remain on the green to claim the 2 putts. If your 1st putt goes off the green, you must first chip back onto the green and then the maximum 2 putt can be taken from there as long as the ball stays on the green with your next putt. 9-27-2023
